Portfolio

SUMMARY

Full-Stack Software Developer building SaaS platforms and EdTech solutions end to end with TypeScript, Angular, Node.js/NestJS and Java/Spring Boot. Experienced in REST APIs, serverless and cloud-native architecture (GCP, Firebase, Vercel), CI/CD pipelines and generative AI/LLM integration (Gemini) that automates operational work, cutting content production from 5 days to 2 minutes. Technical instructor and mentor who pairs agile delivery with real care for the product and the end user.

TECHNICAL SKILLS

Languages: TypeScript, Java, JavaScript, SQL

Frameworks and Libraries: Angular (Signals, RxJS), Node.js, NestJS, Spring Boot

Architecture: REST APIs, Clean Architecture, Serverless, SOLID, Design Patterns, CQRS

Cloud and DevOps: Google Cloud Platform (GCP), Firebase, Vercel, Docker, CI/CD pipelines, Git/GitHub

Artificial Intelligence: Generative AI, LLM integration, Gemini, AI Studio

Databases: PostgreSQL, MySQL, Firestore

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Delcastanher Serviços Administrativos (freelance)
Remote | September 2026 - Present

- Develop the full-stack platform for the Imersão RH Estratégico (strategic HR programme) with Angular on the front end and NestJS on the back end.
- Model and persist application data in PostgreSQL and deliver it on a highly available serverless architecture.

Founder | Liga Dev
Remote | 2026 - Present

- Create a proprietary programming course, combining technical instruction experience with an in-house learning platform.
- Build the platform on the BF Academy architecture (Angular, NestJS, serverless) with generative AI for personalized material and CI/CD pipelines.

Full-Stack Developer | Tichr
Remote | April 2026 - Present

- Build a multi-plan educational SaaS platform end to end with Angular 20 (Signals, Standalone) and NestJS 11 with Firebase.
- Engineered a rule-based scheduling engine that projects and recalculates school timetables, eliminating manual rescheduling when disruptions occur.
- Designed a hybrid CQRS architecture with Smart/Dumb components, REST API commands and real-time Firestore reads powering multiplayer educational games.
- Integrated Gemini for automated course content creation and built custom PIN authentication with JWT to secure and isolate the student portal.

Technical Instructor (part-time) | ProWay
Blumenau, SC, Brazil | January 2026 - Present

- Teach Java, OOP, Node.js, SQL, Angular, JavaScript, TypeScript and Git to teenagers and to adults changing careers or specializing.
- Deliver tailored technical consulting and training for companies, business owners and executives.

Developer (freelance) | Matriz do DNA
Remote | January 2026 - Present

- Develop with Angular and NestJS the platform of an entrepreneur who trains other women entrepreneurs.
- Built a generative AI module with Gemini that personalizes each student's material, cutting production time from 3 hours to 1 minute.
- Run it on a modular serverless architecture with CI/CD pipelines for automated deployment and code quality.

Co-founder and Software Developer | BF Academy
Remote | October 2025 - Present

- Lead the technical side and end-to-end development of a proprietary LMS with Angular and NestJS.
- Built a generative AI module that automated course material creation, cutting production time from 5 days to 2 minutes.
- Moved a service from Google Cloud Run to Vercel to lower hosting costs, within a modular serverless architecture with CI/CD pipelines.

Developer (independent project) | Online Scheduling System
Blumenau, SC, Brazil | October 2025 - November 2025

- Built an online scheduling system with Angular and migrated it from a monolith to serverless, removing idle server costs and increasing availability.

EDUCATION

Systems Analysis and Development (Technologist Degree, in progress) | Uniasselvi
Expected June 2027

AMS Support Bootcamp (200+ hours) | T-Systems / ProWay
December 2025

- ITIL and ITSM (44h), Cloud, DevOps and Networking (36h), Soft Skills and Communication (24h), Java, APIs and Databases (100h+).
- Recognized as the technical reference and mentor of the cohort, which led to an invitation to join ProWay's instructor team.
